

March 17, 1978

951, 952, 953, 954, 956

CLERK: Okay. That any bill carrying an A bill for a general fund appropriation or any enabling legislation containing a general fund appropriation in the bill or any bill reducing the revenue collected and credited to the general fund be bracketed on Final Reading until LB 733, 924, 945, 951, 952, 953, 954, 956 have been passed on Final Reading.

SENATOR GOODRICH: Okay, thank you. Jerry, do you have anything more you want to add?

SENATOR WARNER: Senator Goodrich, you understand this was not my intent but as I read the words, the words would not pertain to LB 92. Had I thought about it I would have written it that way so it would have but I do not believe they do.

SENATOR GOODRICH: You're saying then it is not your intention for the amendment, that your interpretation of your motion is not to capture 92?

SENATOR WARNER: It would have been my intention, Senator Goodrich, but I'm afraid the way the motion is written it does not.

SENATOR GOODRICH: Well, as long as we establish that it does not, because of the fact that, number one, and I have voted with you on your motion prior to this. You did this a couple of weeks ago here when we held all A bills and I voted with you on this. I'm not objecting to that concept. All I'm saying is that since we have passed 92 we have to do something with it. So if this morning we're supposed to pass 92 A and if we pass it, fine. If it doesn't pass, that's another story, but at least we do have one bill that is caught in that limbo there and I want to be sure which way I'm going on that particular bill and as it's my understanding that 92 A is not captured by this amendment, this motion, then I've got no sweat with it.

SENATOR WARNER: The words say to me, Senator Goodrich, and I repeat, that was not my intention, but there's no question but the words would exclude LB 92 inasmuch as enabling legislation has already been enacted.

SENATOR GOODRICH: Thank you.

PRESIDENT: Any further discussion on Senator Warner's motion? The question then is the adoption of that motion. Record your vote. Record.

CLERK: 28 ayes, 2 nays on Senator Warner's motion, Mr. President.

PRESIDENT: The motion is adopted. We go immediately to Final Reading, estimated time, thirty minutes. The first bill up is 92 A. As I understand it, Senator Warner, based upon your understanding of the adoption of that resolution 92 A is not within the purview of your motion but all other bills are. Read 92 A on Final Reading.

CLERK: (Read 92 A on Final Reading.)
